

**DEFIANCE**

**LIQUID ICE  
MELT**

**LIQUID ICE MELT WITH  
CORROSION INHIBITORS**

- ◆ Liquid ice melt will track less than dry material, helping avoid costly cleanings of entry ways.
- ◆ Liquid ice melt contains corrosion inhibitors to prevent the rusting of metal railings and other metal components.
- ◆ Apply Liquid ice melt to sidewalks and traffic areas prior to a winter storm. It will prevent the bonding of snow and ice to the concrete. Light snows will melt on contact and heavy snows will be much easier to remove.

Since 1924
